CMDF Combats Learning Loss with Scuba Camp

Curious Minds Dive Foundation Sponsors Youth Scuba Summer Camp in Florida Keys

WHAT: Curious Minds Dive Foundation's one-of-a-kind summer scuba for students

WHEN: July 18-24, 2021

WHERE: Florida Keys

MURRYSVILLE, PA - May 8, 2021 - To combat learning loss and introduce youth to a world beneath the sea, the Curious Minds Dive Foundation will host a [youth Scuba Summer Camp](#) in the Florida Keys from July 18 to 24, 2021. The one-of-a-kind scuba camp will feature five days of intense diving that will take students to another world beneath the sea in the Florida Keys. Students will explore underground wrecks, learn about reef ecology, see new creatures and be a part of leadership and teaming building activities.

For more than a year, schools have been coping with the impact of COVID-19 pandemic and learning loss at every level. Many parents, not satisfied with remote or online learning, have looked for in-person education options. With this mind, the Curious Mind Dive Foundation developed its [one-of-a kind scuba summer camp](#) just for students.

[The Curious Minds Dive Foundation](#) empowers youth through aquatic-based STEAM and conservation activities designed to expand one's understanding of the world.
